

# 3-circuit Pulse track system

The PULSE track system is a 3-phase lighting track system that includes both normal input voltage and wires for transmitting the control signal to the lights.

This makes it possible to use smart control systems without control units such as Dali. As a consequence, lights can be turned on and off, brightened and dimmed flexibly as separate groups.

L /mm	a /mm	b /mm	c /mm	d /mm
1000	250	1000		
2000	250			
3000	250		1000	1000
4000	250		1500	1000

## ACCESSORIES :

### End feed

### Middle feed

### L-feed

### X-feed

### T-feed

### End cap

Other solutions available for heavy track structures and when the number of suspension cables needs to be decreased for aesthetic reasons.

## 3C-TRACK SUSPENSION KITS :

Suspension cable (1.5m/3.5m/5m) in combination with ceiling fixation and bracket.

### Kit A - for standard ceilings

### Kit B - for standard ceilings

### Kit C - for ceiling tiles

SKB 12  
Fixation for standard ceilings

Ceiling clip in combination with bracket
